Tallahassee, FL 32399

Dear Colonel Knight,

On December 25 2004 while I was traveling west on I-10 the left front wheel on my vehicle blew out, which forced my truck into eastbound traffic striking another vehicle. Almost immediately Trooper W. D. Lovett, I.D. # 2249, was on the scene, I was confused and disoriented his calm professionalism and genuine concern for my well being was consoling.

While continuing his investigation his demeanor, rapport and character remained professional and yet, caring and sincere. After he finished his investigation he continued to make the situation as tolerable as he could. His concern never wavier for the safety of those involved, as well as, citizens merely passing by.

Trooper Lovett's professionalism and indisputable regard for his fellow man makes him an exemplarily law enforcement agent and asset to your department and the public which he so honorably serves.

Sincerely,

J. A. Corbett, III
